The Honorable Merrick B. Garland
Attorney General
United States Department of Justice
950 Pennsylvania Avenue, NW
Washington, DC 20530

Dear Attorney General Garland,

We write to express our grave concern over the impending attacks against Choices Pregnancy Centers in Arizona (Choices) and ask that the Department of Justice immediately make plans to investigate and deter any plans for violence against Choices and other pregnancy centers.

As we await the decision from the U.S. Supreme Court in the *Dobbs v. Jackson Women's Health* case, pro-abortion activists are planning violent attacks against pro-life organizations and pregnancy centers if the Supreme Court rules in favor of protecting preborn babies.

The far-left extremist group, Jane's Revenge, is calling for violence and the burning of pregnancy centers on the night the Supreme Court ruling is issued. On the Jane's Revenge online blog, the group's leader calls for "courageous hearts to come out after dark" and "to do what you can to make your anger known." The blog specifies that on the night the ruling is issued, "actions nationwide" should begin at 8:00 PM.

Marysa Elizabeth Levya, a member of ANTIFA from Phoenix, AZ and alleged Jane's Revenge leader, recently released a map of pregnancy centers in Arizona, including Choices locations, that she wants to see destroyed. Choices has been forced to increase security at their locations for the safety of their clients and staff.

As the nation's chief law enforcement official, what is your plan to prevent these attacks against pregnancy centers and to prosecute any violent perpetrators? Does the Department of Justice plan to coordinate with state and local law enforcement agencies to protect these pregnancy centers, their clients, and their staff?

Pregnancy resource centers like Choices offer many free and low-cost services to mothers and their babies, including free pregnancy tests, free ultrasounds, prenatal care, post-abortion care, free diapers, free baby clothes, and much more. Mothers and children in need of these services

must be able to seek them without fear of violence from domestic terror groups like Jane's Revenge.

We look forward to your swift response and the outline of your plan to protect pregnancy centers.

Sincerely,

Debbie Lesko
